-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9,12-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Arnold, (5,819,606).

Arnold teaches a semi rigid, plastic or metal pellet, 42, (col. 5, lines 2-3), adapted to be used with a female recess tool, 10, for clamping a mobile element, (the ratchet wrench), to be completely inserted in the female recess, (fig. 14), and to maintained therein by forces of friction generated by rubbings between an inner wall of the female recess and a lateral surface of the element, the device comprising an element having three dimensions, one of the three dimensions being substantially smaller than the other two of the three dimensions and being located in a plane perpendicular to an axis of clamping of the mobile element, the element marking or identify the female recess tool by a multilayered, (the color, and the writing), inscription on two sides, (col. 4, lines 50-54), corresponding to the dimensions of the tool, (col. 4, lines 31-56).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3723

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Arnold.

Arnold teaches all the limitations of the claims except for the pellet having a thickness included between 0.1 and 1.5 mm. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the pellet of Arnold with the thickness of between 0.1 and 1.5 mm, in order to correspond with the various tools in which the pellets will be utilized, and since it has been held to be where the general conditions of the claims have been disclosed in the prior art, discovering the workable or optimum ranges involves only routine skill in the art.

#### ***Allowable Subject Matter***

Claims 11 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.
